Solutions Driven by People.

BE-5601 | Fillet Distributor

Effective Distribution of Salmon Fillets.

- Hygienic open frame design for easy cleaning.
- Gentle distribution of raw material.
- Distributes up to 50 fillets/min.
- Compact design.
- Works with all brands and models of Pinbone Machines.
- Easy to operate – no technicians needed.

Efficient & Compact Fillet Distributor.

The BE-5601 Beritech intelligent fillet distribution system. This model effectively distributes fillets from 2 to 4 lanes.

The innovative pusher design gently offset the fillets on the conveyor belt, with the pusher movement being automatically synchronized according to belt speed.

The Beritech design significantly reduces the footprint, so it becomes a very compact yet effective solution.

Machine

Model	BE-5601 From two lanes to four lanes
Dimensions LxW	1665 x 1560 mm
Power Consumption	0,74 kW
Air Consumption	12 L / min
Electricity	3 x 400V + N + PE / 3 x 220V + PE
Weight	365 kg
Noice Level	70 dB (A)
Control Voltage	24 VDC
